# Local Food

We're thankful to our hard-working local producers who bring us an incredible array of crops throughout the season, keeping Vermont's working landscape active and delicious local food on our shelves.

This guide is our celebration of the ever-changing foods that our land produces.

## What is “Local” at City Market?

“Local” products at City Market are grown, or raised in Vermont, where the farm selling the product is from Vermont, and any processing is done in Vermont. These local products are mostly whole, unprocessed foods.

## What is “Made in Vermont” at City Market?

“Made In Vermont” products are significantly transformed in Vermont, but are not made from Vermont-grown ingredients. This brochure only lists “Local” products.
